

# Toilet Independence Agreement

I \_\_\_\_\_ (parent name) understand that Peace With Christ Early Learning Center (PWC ELC) is not equipped to toilet train children according to licencing expectations.

With this understanding I agree that \_\_\_\_\_ (child name) is able to:

- communicate their potty needs effectively (ie, saying they need to go potty or asking for help to get on the toilet)
- follow simple instructions
- wipe themselves without help after peeing and pooping
- tell the teacher when they have had an accident
- change their clothing by themselves
- pull their pants up and down independently
- wash their hands with little support
- sleep without using pull-ups

At PWC ELC we understand that all children have accidents occasionally. If we are finding that your child has multiple accidents in a week, we will contact you to work together to figure out how to help your child be successful. If we find that your child is not yet able to use the toilet independently as above requested, you will be asked to keep your child at home, with their spot being held at school, until they are ready to come back to school being able to use the toilet independently.
